ASIIN ACADEMY

PROFESSIONAL DEVELOPMENT
FOR HIGHER EDUCATION

Individually designed. Developed together.

Customized Training Offers

Training for higher education institutions — tailored to your goals, your processes and your schedule.

No programme off the shelf

We develop every training course together with you. In an initial consultation we clarify the need, the target group and the framework — and from this we shape the content, format and duration that fit your institution. All courses are delivered by experts in accreditation, quality management and higher education teaching.

Content

From strategy and learning outcomes through to curriculum, processes and assessment — you set the priorities.

Format

Online, on your campus, as a study visit to Germany, or any combination of these.

Scope

From a half-day workshop to a multi-part programme running over several months.

OUR CLIENTS

We work with quality managers at higher education institutions, staff of accreditation and QA agencies, and subject experts involved in accreditation and quality assurance — nationally and internationally.

YOUR OFFER

Let's talk.

Topics from Previous Trainings

A selection. Every programme is put together from scratch — individual modules can be combined, explored in more depth or replaced.

01 First Steps for the Accreditation of Degree Programmes

02 Strategy development

03 Procedural criteria for a successful accreditation

04 Self Reporting and Assessment

05 Programme Accreditation and Quality Assurance

06 Learning-outcome-oriented programme development

07 QM instruments and methods in the specific context of the university as an organisation

08 Strategic Development and Quality Management of Engineering Degree Programmes

Three steps to your training

1

Initial consultation

We clarify the need, the target group, prior knowledge and the timeframe.

2

Concept and proposal

You receive the programme, trainers, duration and costs in writing.

3

Delivery

Training, materials and follow-up from a single source.
